

Wash Screw WP

- Combined conveyor and wash press. Saves the need for additional conveyors.
- Robust screw spiral and thick wear bars.
- Compact design with selectable drive unit gives flexibility.
- Enclosed, safe & hygienic.

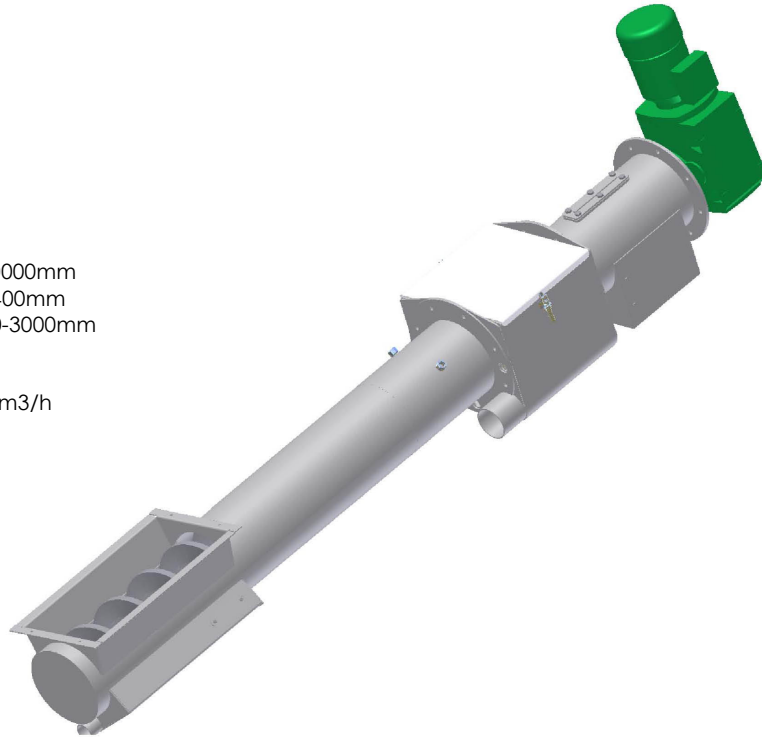

Wash Screw WP

Wash Screw WP is a combined pulling conveyor and wash press for screenings and wet waste.

The material is conveyed to the wash press zone where a resistance gives retention time for washing and compaction. The material is partly shredded during discharge.

Length 1000-10000mm
Diameter 200-400mm
Inlet length 500-3000mm
Angle 0-90gr
Dryness 30-40%
Capacity 0.5-4m³/h

MN has hundreds of international references and has worked with machinery within water treatment for 30 years. We offer the most innovative solutions and the most extensive knowledge on screening equipment. We make all our products ourselves acc to ISO & CE standards, Swedish steel working tradition and quality culture. We only use certified materials and welders.
