

## Ram Press RP

- Robust quality stainless construction enables high compaction forces and good dewatering.
- Modern design on well proven concept. Conveys long distances >10m.
- Stainless steel hydraulic power unit.
- Selectable perforation type for high dewatering and good drainage.
- Enclosed, safe & hygienic.

## Ram Press RP

Ram Press RP is a hydraulic conveyor press that compacts, dewater, and conveys screenings and wet waste. It consists of a pipe with a hydraulic ram that forces the material into a pipe system or a counter forcing device creating back pressure for compaction and dewatering.

Height 300-700mm  
Diameter 150-400mm  
Inlet length 500-2000mm  
Dryness 20-30%  
Capacity 0,5-4m<sup>3</sup>/h

MN has hundreds of international references and has worked with machinery within water treatment for 30 years. We offer the most innovative solutions and the most extensive knowledge on screening equipment. We make all our products ourselves acc to ISO & CE standards, Swedish steel working tradition and quality culture. We only use certified materials and welders.
