Shredder MT

Shredder MT is an accessory for Wash Press TP.
Shredder MT adapts the operation conditions for the wash press continuously giving optimum controlled wash press retention time. This gives maximum washing and compaction due to heavy mechanical agitation. No need for impeller tank pre washing. Shredder MT can be installed vertical, horizontal or angled. At the end or the beginning of a pipe system.

Diameter 150-500mm
Length 0.5-30m
Dryness 40-60%

MN has hundreds of international references and has worked with machinery within water treatment for 30 years. We offer the most innovative solutions and the most extensive knowledge on screening equipment. We make all our products ourselves acc to ISO & CE standards, Swedish steel working tradition and quality culture. We only use certified materials and welders.
